Standardized Bycatch Reporting Methodology
Annual Discard Report
2010

SECTION 2

Prepared by

Northeast Fisheries Science Center

166 Water Street

Woods Hole, MA 02543

January 2011

CORRECTION: The original publication of this report, released in January 2010, had incorrect summaries in Tables 5a, 5b, and 5c. The original tables were incorrect because of the way the data were stratified. This report contains the corrected Tables 5a, 5b, and 5c which summarize data by statistical area. The row totals and grand totals originally reported remain unchanged; however, statistical area assignments have changed.

Section 1 of this report contains the text, Tables 1-5 (where Tables 4a-b and 5a-b summarize data at the species group level), and Appendix Tables containing summary information on discard reason and interactions with incidental take species.

Section 2 of this report contains only Tables 4c-d and 5c-d where data are summarized at the individual species level.

Table 4c. Kept and discarded pounds (live) for individual species, by gear type, access area, trip category, region, mesh and quarter (Q) during July 2008 - June 2009.
Species: ALEWIFE
