

## CURRICULUM VITAE

1. NAME Gary H. Wikfors

2. PROFESSIONAL ADDRESS: Northeast Fisheries Science Center  
NOAA, National Marine Fisheries Service  
212 Rogers Avenue  
Milford, CT 06460

3. CURRENT TITLE/POSITION/GRADE Chief, Biotechnology Branch/Supervisory  
Research Fisheries Biologist/ZP-0403-IV

### 4. EDUCATIONAL HISTORY

a. Degrees received:

B.S. in Biology (University of Maine, Orono, ME, 1976)

M.S. in Biology (University of Bridgeport, Bridgeport, CT, 1979)

Ph.D. in Phycology (University of Connecticut, 1996)

b. Other training:

In-house statistics courses, Milford Laboratory, NMFS, taught by NRC  
Consultants, 1983.

Course in Sailing and Seamanship, taught by U.S. Coast Guard Auxiliary Flotilla  
73, Milford, CT. Earned certificate, 1984.

Introduction to Supervision (U.S. OPM 2-day course), 1985.

Instrumental Analysis (3 credits), University of Bridgeport, 1986.

Management Briefing: Conflict Management (Supervisory EEO Training), 1987

Management Orientation (OPM, 2-day course), 1987

Supervisory Training (NOAA, 4-day course), 1988.

FACSCAN Flow Cytometer Basic Operator's Course, one-week course at  
Becton-Dickenson Training Center, Braintree, MA, 1990.

20/20 Training at University of Connecticut in Phycology, 1993-1995.

Bigelow Laboratory Flow Cytometry Workshop (one-week special-topics training)

Overview of SQL (AT&T Technical Education Center), 1995.

Oracle for End Users (AT&T Technical Education Center), 1995.

Intro to UNIX Operating System for Users (AT&T Technical Education Center),  
1995.

Introduction to Management and Supervision (OPM, 2-week course), 1996.

COTR Basic Course (NOAA 2-day course), 1999.

BD Biosciences FACSVantage basic operators course, 2002.

Experimental Design (in-house, 10-week course taught by NRC Consultants),  
2002.

### 5. PROFESSIONAL HISTORY

8/04-PRESENT - Supervisory Research Fisheries Biologist, ZP-0403-IV, National Marine  
Fisheries Service, Northeast Fisheries Science Center, Milford, CT. Chief, Biotechnology Branch,

Aquaculture and Enhancement Division; Supervisor, Christopher L. Brown. Responsible for managing the research, personnel, and fiscal operations of a group of 15 professional and technical staff applying the tools of biotechnology, genetics, microbiology, immunology, and chemistry to studies of living marine resources in aquacultural and environmental contexts. Completed transitions from GS to Demo and finally CAPS Personnel Management system, and from PPT to PPBS and finally eAOP financial planning instrument. Working to improve coordination of the group to focus cooperative research on detecting sub-lethal stress in target species - mainly bivalve mollusks - and to build the breadth of technical expertise in the Branch through new hires, post-docs, and students.

12/79-8/04 Microbiologist --Research Microbiologist, GS-9 - GS-14, ZP-0403-IV, National Marine Fisheries Service, Northeast Fisheries Science Center, Milford, CT. Group Leader for Phytoplankton Trophic Interactions Project, Biotechnology Branch, Aquaculture and Enhancement Division, supervisors Ravenna Ukeles, Richard Robohm, Anthony Calabrese. The three major responsibilities of this position were: 1) Managing activities of a group of researchers, including project planning and performance management, 2) conducting original laboratory and field experimental research on marine phytoplankton relative to their use as a source of nutrition by bivalve mollusks and other invertebrates, and 3) coordinating the mass-culturing of microalgae to provide nutritional support for invertebrates being reared for experimental purposes throughout the Milford Laboratory. Duties included technical supervision of unit staff, preparation of formal research plans, designing and conducting experimental procedures for researching physiological responses of microalgae to nutrients and pollutants, as well as nutritional, physiological, and immunological studies with bivalve mollusks, evaluating results, and preparing manuscripts describing original research for publication in peer-review journals and presentation at professional meetings. Also responsible for managing unit resources and responding to Agency reporting requirements. Organizational accomplishments: took initiative to supplement internal financial support with outside grants; established collaborative relationships with many outside researchers to accomplish research goals beyond capabilities of the work group; developed training course in microalgal culture for commercial aquaculturists and taught course 12 consecutive years; served as default "extension agent" for microalgal culture for US aquaculture community; served on academic committees of several graduate students in capacity as adjunct faculty member of three institutions; served as advisor for NRC post-doctoral researcher; established US-France Bilateral Agreement in Oceanography element on "Domestication of Molluscan Shellfish." Research accomplishments: demonstrated trophic transfer of heavy metal pollutants in microalgae-mollusk food chain; established biochemical basis for differences in nutritional value of microalgal strains for bivalve mollusks (especially concerning essential sterols and fatty acids); developed ration and regime feeding tables for nursery culture of bivalve mollusks; elucidated histopathological effects of harmful microalgae upon bivalves; established new flow-cytometric methods for assessing phytoplankton physiology and morphology and function of molluscan hemocytes.

11/79 Laboratory Technician.

Olin Research, New Haven, CT. Four-week temporary position during hiring freeze at Milford Laboratory. Responsible for outfitting media-preparation laboratory. Required purchasing glassware, chemicals, and some large equipment, arranging materials for efficient use in a newly-rebuilt laboratory room, assembling annotated notebook of medium formulations required by microbiologists in a large research program, and training technicians in media-preparation

procedures. Accomplishment: established working laboratory that continued to function over 20 years later.

1/78-9/79 Biological Laboratory Technician (GS-5 -GS-7).

National Marine Fisheries Service, Northeast Fisheries Center, Milford, CT. Responsibilities included completing all aspects of a thesis project on heavy-metal pollutant effects upon cultured microalgae and larval oysters. Responsible for regular, periodic subculture routine for laboratory culture collection of over 100 axenic algal strains, producing algal food cultures using semi-continuous mass culture techniques, and rearing bivalve mollusks from fertilized eggs. Duties included algal culture procedures, determination of bacterial contamination in algal cultures, eliminating contaminants using antibiotics and other techniques, microscopic staining of algal cells, and identification of algal species using light, phase-contrast, and fluorescence microscopy. Accomplishments: completed MS research and became competent research scientist

9/77-9/78 Assistant Instructor.

University of Bridgeport, Bridgeport, CT. Responsible for formulating, preparing, and conducting undergraduate biology laboratory exercises. Also responsible for writing and grading laboratory examinations. Courses assisted in were: Bio 320, Microbiology; Bio 114, Anatomy and Physiology; Bio 110, Human Biology; and Bio 109, Foundations of Life.

1/77-9/77 Laboratory Technician.

Greater Bridgeport Regional Narcotics Laboratory, Bridgeport, CT. Responsible for laboratory determinations of abuse levels of narcotics in blood and urine samples from half-way-house and methadone-maintenance patients. Full qualitative drug screens were done using thin-layer chromatography, and confirmation tests were done spectrophotometrically. Specific duties included preparation of solutions, extraction of samples in organic solvents; spotting, developing, staining, and reading TLC plates; preparation of suspected positive samples for confirmation, and final testing using immunological procedures.

## 6. AWARDS

NOAA Special Achievement Award, 1981.

Outstanding performance rating: 1982, 1983, 1984, 1985, 1987, 1991, 1992, 1993.

Certificate of Recognition for "... notable performance during extended absence of the Investigation Chief," 1985.

Special Act or Service Award, 1986.

Sustained Superior Performance Awards; 1989, 1990, 1994-2000.

Quality Step Increase, 2002; Performance Award 2003.

1998 NOAA Technology Transfer Award.

1999 NOAA Fisheries Bronze Medal.

2001, Judith Brenman-Hoskins Award.

## 8. PRESENTATIONS

- a. Talks presented at professional meetings (**invited indicated**) (~ 20 in 2005-2006 not listed here, but updated under Abstracts above)

Wikfors, G.H. 1980. Microalgae cultured in high heavy metal concentrations as food for larvae of the American oyster, *Crassostrea virginica*. Second Center Research Meeting, Northeast Fisheries Center, NMFS. 1-3 April, Woods Hole, MA.

Wikfors, G.H., J.W. Twarog, Jr., and R. Ukeles. 1984. Chemical composition of two microalgal species cultured in different growth media. 23rd Northeast Algal Symposium, 28- 29 April, Woods Hole, MA.

Wikfors, G.H. 1987. Analyses of phytoplankton from LIS hard clam recruitment stations. 7th Annual Shellfish Biology Seminar, 3 March, Milford, CT.

Wikfors, G.H. 1987. Long Island Sound phytoplankton as possible food for bivalve mollusks. 26th Northeast Algal Symposium, 24-26 April, Woods Hole, MA.

Wikfors, G.H., G.E. Ferris, and B.C. Smith. 1988. Comparing algal diets for juvenile clams and oysters under controlled laboratory conditions. 19th Annual Meeting of the World Aquaculture Society, 2-9 January, Honolulu, HA.

Wikfors, G.H. 1988. Progress in the evaluation of phytoplankton as potential clam food in Long Island Sound. 8th Annual Shellfish Biology Seminar, 2 March, Milford, CT.

Wikfors, G.H., G.E. Ferris, B.C. Smith, and J.W. Twarog, Jr. 1989. Survival and growth of juvenile clams and oysters on diets of cadmium-contaminated microalgae. 9th Annual Shellfish Biology Seminar, 21 February, Milford, CT.

Wikfors, G.H., G.E. Ferris, B.C. Smith, and J.W. Twarog, Jr. 1989. Detrimental effects of cadmium-contaminated microalgae upon laboratory-reared clams and oysters. 28th Northeast Algal Symposium, 29-30 April, Woods Hole, MA.

Wikfors, G.H., R. Ukeles, and G.E. Ferris. 1989. Nutrient deficiency and storage products in cultured diatoms: Do centric and pennate diatoms respond alike? Annual Meeting of the Phycological Society of America, 6-10 August, Toronto, Canada.

Wikfors, G.H., P.K. Gladu, G.W. Patterson, G.E. Ferris, and B.C. Smith. 1990. The role of algal sterols in oyster nutrition: Evidence from Milford feeding studies. 10th Annual Shellfish Biology Seminar, 27 February, Milford, CT.

Gladu, P.K., G.W. Patterson, G.H. Wikfors, and W.R. Lusby. 1990. Free and combined sterols in Pavlova gyraus. 81st American Oil Chemists' Society Annual Meeting, 22-26 April, Baltimore, MD.

Goldberg, R. and G.H. Wikfors. 1991. Growth of hard clams in Long Island Sound: Sorting out the determining factors. 11th Annual Shellfish Biology Seminar, 25-27 February, Milford, CT.

Wikfors, G.H. 1991. Hard clam nutrition in the lab and in the field: What does one tell us about the other? 11th Annual Shellfish Biology Seminar, 25-27 February, Milford, CT.

Wikfors, G.H., A. Neeman, and P.J. Jackson. 1991. Cadmium-binding polypeptides in marine microalgal strains subjected to long-term cadmium stress. 30th Northeast Algal Symposium, 27-28 April, Woods Hole, MA.

Wikfors, G.H., P.K. Gladu, and G.W. Patterson. 1991. In search of the ideal algal diet for oysters: Recent progress, with emphasis on sterols. Annual Meeting of the National Shellfisheries Association, 23-27 June, Portland, ME.

Wikfors, G.H. and R.M. Smolowitz. 1991. Detrimental effects of a Prorocentrum isolate upon hard clams and bay scallops in laboratory feeding studies. Fifth International Conference on Toxic Marine Phytoplankton, 28 October - 1 November, Newport, RI.

Smith, B.C., G.H. Wikfors, C.S. Kim, and S.T. Mayne. 1992. Phytoplankton pigments accumulated by the Arctic surfclam, Mactromeris polynyma. 12th Annual Shellfish Biology Seminar, 25-26 February, Milford, CT.

- Wikfors, G.H. and R.M. Smolowitz. 1992. Are Prorocentrum strains toxic to bivalve mollusks? Evidence from field and laboratory studies. 12th Annual Shellfish Biology Seminar, 25-26 February, Milford, CT.
- Smith, B.C., G.H. Wikfors, C.S. Kim, and S.T. Mayne. 1992. Phytoplankton pigments accumulated by Mactromeris polynyma. 31st Northeast Algal Symposium, 25-26 April, Woods Hole, MA.
- Wikfors, G.H., W.J. Blogoslawski, and R. Goldberg. 1992. Relationships between bacterial abundance and selected hydrographic and seston measures at three Long Island Sound sites. Long Island Sound Research Conference, 23-24 October, New Haven, CT..
- Wikfors, G.H., R.M. Smolowitz, and B.C. Smith. 1993. Effects of a Prorocentrum isolate upon the oyster, Crassostrea virginica: A study of three life-history stages. 13th Milford Aquaculture Seminar, 23-24 February, Milford, CT.
- Wikfors, G.H. and G.W. Patterson. 1993. Isochrysis alphabet soup. 32 nd Northeast Algal Symposium, 23-24 April, Woods Hole, MA.
- Wikfors, G. H. and R. M. Smolowitz. 1994. Dinoflagellate autolysosomes and responses of different bivalves feeding on Prorocentrum....is there a connection? 14<sup>th</sup> Milford Aquaculture Seminar, 22-24 February, Milford, CT.
- Wikfors, G. H. and R. M. Smolowitz. 1994. Why are dinoflagellates toxic to some shellfish and not others? 33<sup>rd</sup> Northeast Algal Symposium, 22-24 April, Woods Hole, MA.
- Wikfors, G. H. 1996. Phytoplankton can develop tolerance to heavy metals, become metal-contaminated, and harm invertebrates that consume them. 20<sup>th</sup> Annual Meeting of the New England Association of Environmental Biologists, Falmouth, MA, 6-8 March (invited).
- Wikfors, G. H., B. C. Smith, J. H. Alix, and M. S. Dixon. 1996. When is it time to feed the scallops? National Shellfisheries Association Annual Meeting, Baltimore, MD, 14-18 April.
- Wikfors, G. H., G. W. Patterson, and R. A. Lewin. 1996. High-lipid Tetraselmis cultures support rapid growth of post-set oysters and scallops. Annual Meeting of the National Shellfisheries Association, Baltimore, MD 14-18 April.
- Wikfors, G. H. and L. Wilkinson. 1997. Phytoplankton culture for nursery rearing of post-set bivalves: Scaling exercises or We can't afford to do that! Can we? 17<sup>th</sup> Milford Aquaculture Seminar, 24-26 February, New Haven, CT.

- Smith, B. C. and G. H. Wikfors. 1997. Design and research plan for the Milford Phytoplankton Culture Greenhouse facility. 17<sup>th</sup> Milford Aquaculture Seminar, 24-26 February, New Haven, CT.
- Wikfors, G. H. 1997. Culturing microalgal feeds for molluscan aquaculture: What do we have to know to do it better? 49<sup>th</sup> Annual Interstate Seafood Seminar and Aquaculture in the Mid-Atlantic Conference, 4-7 November, Ocean City, MD (invited).
- Dixon, M. S. and G. H. Wikfors. 1998. Tetraselmis chui, PLY429, grows better in flat tanks than in tubes. 18<sup>th</sup> Milford Aquaculture Seminar, 23-25 February New Haven, CT.
- Wikfors, G. H. and B. C. Smith. 1998. Simple process-control retro-fits for microalgal, mass-culture tanks. World Aquaculture '98, 15-20 February, Las Vegas, NV.
- Wikfors, G. H., J. H. Alix, M. S. Dixon, and B. C. Smith. 1998. Feeding ration and regime as factors controlling growth rate and conversion efficiency of bay scallops. 18<sup>th</sup> Milford Aquaculture Seminar, 23-25 February, New Haven, CT.
- Wikfors, G. H., J. C. Widman, S. Stiles, R. A. Robohm, and A. Calabrese. 1998. New England bay scallops as a one-season aquaculture crop. Marine Aquaculture -- Emerging Technologies and Global Opportunities Workshop, 25-27 June, Stamford, CT (invited).
- Wikfors, G. H., J. H. Alix, M. S. Dixon, and B. C. Smith. 1999. Feeding rations and regimes for post-set oysters, Crassostrea virginica, fed cultured microalgae in a land-based nursery. 19<sup>th</sup> Milford Aquaculture Seminar. 27 February - 1 March, New Haven, CT.
- Wikfors, G. H., B. C. Smith, and L. Wilkinson. 2000. Design criteria for microalgal feeds production systems, and the GRAMPS experience. National Shellfisheries Association meeting, 19-23 March. Seattle, WA (invited).
- Wikfors, G. H. 2000. Aquacultural feeding standards for molluscan shellfish seed: a first cut. National Shellfisheries Association meeting, 19-23 March, Seattle, WA (invited).
- Wikfors, G. H., J. H. Alix, S. Barcia, J. Cullum, S. E. Shumway, and R. M. Smolowitz. 2000. Experimental exposures of bay scallops to cultures of suspected harmful microalgae. National Shellfisheries Association meeting, 19-23 March, Seattle, WA (invited).
- Wikfors, G. H., J. H. Alix, S. Barcia, and J. Cullum. 2000. Responses of bay scallops at several life-history stages to cultures of potentially-harmful marine microalgae. 20<sup>th</sup> Milford Aquaculture Seminar, 28 February - 1 March, New Haven, CT.
- Wikfors, G.H. and B.C. Smith. 2000. Intensive culture of microalgae as live feed for bivalve mollusks. Acuicultura, II Seminario Internacional, 27-29 September, Lima, Peru (invited).

- Wikfors, G.H. and J.C. Widman. 2000. Intensive seed production of pectinid mollusks. *Aquicultura, II Seminario Internacional*, 27-29 September, Lima, Peru (**invited**).
- Wikfors, G. H., J. H. Alix, M. S Dixon, and B. Smith. 2001. Effect of feeding ration and regime upon growth and food conversion of juvenile quahogs, *Mercenaria mercenaria*, and comparison with bay scallops and eastern oysters. *Milford Aquaculture Seminar*, 26-28 February, New Haven, CT.
- Wikfors, G. H. 2001. Feeding strategies for the nursery culture of bivalve mollusks. *Aquaculture Canada*, May 6-10, Halifax, NS (**invited**).
- Wikfors, G.H. 2002. Livestock domestication in the third millennium: All wet? *Milford Aquaculture Seminar*, 25-27 February, New Haven, CT.
- Wikfors, G.H., Alix, J.H., Smolowitz, R.M., Wallace, L. & Hégaret, H. 2002. Detrimental effects of a recent *Prymnesium* isolate from Boothbay Harbor, Maine (USA), upon juvenile bay scallops, *Argopecten irradians*. *National Shellfisheries Association Annual Meeting*, 14-18 April, Mystic, CT (**invited**).
- Wikfors, G.H. 2002. Algal feeds and marketing of bivalve molluscan shellfish – is it possible to connect these two subjects? *Aquaculture Canada*, 17-20 September, Charlottetown, PEI, Canada (**invited**).
- Wikfors, G.H., Smith, B.C., Meseck, S.L., Dixon, M.S., and Alix, J.H. 2003. A decision tree for designing a process to produce microalgal feeds for aquacultured animals. *Milford Aquaculture Seminar*, 23-25 February, New Haven, CT
- Wikfors, G.H., Smolowitz, R.M., Hégaret, H. & Alix, J.H. 2004. The estuarine dinoflagellate, *Prorocentrum minimum* – “HAB” or “HAB-not?” *Milford Aquaculture Seminar*, 24-26 February, New Haven, CT
- Wikfors, G.H., Widman, J.C., Smith, B.C., Veilleux, D., Choromanski, J., Meseck, S.L., Goldberg, R. & Stiles, S. 2004. Development of secure rearing systems for domesticated bivalve broodstock. *Aquaculture 2004*, 1-5 March, Honolulu, HI (**invited**).
- Wikfors, G.H., Alix, J.H., Dixon, M.S., & Smith, B.C.. 2004. The northern quahog *Mercenaria mercenaria* has slower growth and poorer conversion efficiency than oysters or scallops fed identical dietary rations and regimes. *Aquaculture 2004*, 1-5 March, Honolulu, HI (**invited**).
- Wikfors, G.H., 2004. US-France Bilateral Program on Ocean Science, Domestication of Bivalve Molluscan Shellfish. Update for 2004 WCC-99 Broodstock Management, Genetics and Breeding Programs for Molluscan Shellfish, 29 February, Honolulu, HI (**invited**).

Smith, B.C. & Wikfors, G.H. 2004. Large-volume, microalgal culture in a greenhouse environment. Northeast Algal Symposium, 23-25 April, Groton, CT.

Wikfors, G.H. 2004. Microalgal Culture Tech Transfer Session. Northeast Aquaculture Conference and Exposition, 3-4 December, Manchester, NH (**invited**).

Several hundred since 2004.

b. Posters presented at professional meetings (~ 5 in 2005-2006 not listed here, but updated under Abstracts above)

Wikfors, G.H. 1982. Persistence of metal tolerance in two microalgal species (poster). 21st Northeast Algal Symposium, 1-2 May, Woods Hole, MA.

Smith, B.C. and G.H. Wikfors. 1988. The semicontinuous microalgal mass culture system at the Milford Laboratory (poster). Symposium –Economically Important Marine Plants of the Atlantic: Their Biology and Cultivation, 3-4 October, University of Connecticut, Avery Point, Groton, CT.

Wikfors, G.H., G.E. Ferris, and R. Ukeles. 1992. Factors limiting the salinity tolerance of the freshwater cryptophyte, Chilomonas paramecium: Turning back the tide of evolution. 31st Northeast Algal Symposium, 25-26 April, Woods Hole, MA.

Alix, J. H., M. S. Dixon, B. C. Smith, and G. H. Wikfors. 1997. An experimental feeding regime for larval bay scallops that induces metamorphosis on a controlled schedule. Poster presented at the 17<sup>th</sup> Milford Aquaculture Seminar, New Haven, CT, 24-26 February.

Dixon, M. A. and G. H. Wikfors. 1997. 3H, pH, and auxospores B Can we make this bug a reliable aquaculture feed? Poster presented at the 17<sup>th</sup> Milford Aquaculture Seminar, New Haven, 24-26 February.

Dixon, M. S., B. C. Smith, and G. H. Wikfors. 1999. The inverted propeller beanie...A new way to mix large microalgal tanks. 19<sup>th</sup> Milford Aquaculture Seminar.

Wikfors, G.H., Dam, H.G., McManus, G.B., Shumway, S.E. & Smolowitz, R.M. 2000. Trophic effects of estuarine bloom species upon benthic and planktonic grazers. Symposium on Harmful Marine Algae in the U.S., 4-9 December, Woods Hole, MA (**invited**).

Wikfors, G.H. & Dam, H.G. 2000. The role of phytoplankton-copepod trophic interactions in hypoxia; underestimated? The Fifth Biennial Long Island Sound Research Conference, 17-18 November, Stamford, CT.

Wikfors, G.H. & Dixon, M.S. 2001. A clear case of overfishing in Room 25. Northeast Fisheries Science Center's Seventh Science Symposium, Westbrook, CT December 11-13.

Hégaret, H. & Wikfors, G.H. 2003. Study of the immune responses of the bivalves *Crassostrea virginica* and *Argopecten irradians irradians* exposed to natural and artificial blooms of the dinoflagellate, *Prorocentrum minimum*. Second Symposium on Harmful Marine Algae in the US, Woods Hole, MA, 8-13 December.

Alix J.H., & Wikfors, G.H. 2004. A flow-cytometric method for counting microalgal and bacterial cells in the same sample. Northeast Algal Symposium, 23-25 April, Groton, CT.

Croxton, A., Wikfors, G.H., & Gragg, R.D., III. 2004. Immune responses in the eastern oyster, *Crassostrea virginica*, exposed to benthic diatoms contaminated with polyaromatic hydrocarbons. Northeast Algal Symposium, 23-25 April, Groton, CT.

Meseck, S.L., Alix, J.H., Wikfors, G.H., & Dixon, M.S. 2004. How different light regimes and intensities affect growth rates and nutrient uptake in the algal strain, *Tetraselmis chui* (PLY429). Northeast Algal Symposium, 23-25 April, Groton, CT.

Hégaret, H., Wikfors, G.H., & Shumway, S.E. 2004. Study of the Immune responses of oysters, *Crassostrea virginica*, and scallops, *Argopecten irradians*, exposed to natural and artificial blooms of *Prorocentrum minimum*. XI International Conference on Harmful Algal Blooms, 14-19 November, Cape Town, South Africa.

Dozens since 2004.

c. Other seminars/presentations

Wikfors, G.H. 1988. Fine fodder for filter-feeders: Algal culture and molluscan nutrition at Milford. Bigelow Laboratory for Ocean Sciences Guest Lecture Series, 20 May, West Boothbay Harbor, ME (**invited**).

Wikfors, G.H. 2000. Succeeding with microalgal feed cultures. Maine State Aquaculture Assoc. monthly meeting, Damariscotta, ME, 5 April (**invited**).

UCONN Marine Sciences Department Seminar Series, Groton, CT, 2 : 1992 & 2001.

Horn Point Environmental Laboratory Seminar Series, 9 June 2005.

Yale School of Forestry and Environmental Science, 2006 Seminar on LI Sound Nutrients, 21 March 2006.

Many more since.

## 9. PROFESSIONAL AFFILIATIONS/ACTIVITIES/SERVICE

a. Professional societies/organizations (offices held)

Northeast Algal Society (elected co-convenor of 1995 Northeast Algal Symposium).

National Shellfisheries Association (elected Member at Large, 2002; Vice President 2004).

Canadian Aquaculture Association

ASLO

b. Editorial positions

Aquaculture (Review Board Member, 2001-2005)

Bulletin of Environmental Contamination and Toxicology (Review Board Member)

Journal of Shellfish Research (Review Board Member)

Harmful Algae (Review Board Member)

Review submissions to: Journal of Aquaculture Engineering, Journal of Experimental Marine Biology and Ecology, Journal of Phycology, also many others sporadically.

Review books for Harmful Algae, Journal of Shellfish Research, and Journal of Phycology.

Also provided critiques of book manuscripts for commercial publishing company (AVI, Westport, CT)

Review NOAA Sea Grant, NIST, OAR, USDA, NSF, and other Proposals.

c. Membership on panels

ICES Working Group on Harmful Algae Bloom Dynamics, 1995-present.

Technical and Industry Advisory Committee, Northeast Regional Aquaculture Center, USDA, 1992-98.

NMFS representative on EPA Long Island Sound Management Committee, 2001-

Present; also member of Science and Technical Advisory Committee 2001-2012.

New York Sea Grant Hard Clam Research Initiative Steering Committee, 2000-present.

Invited participant in Atlantic Northeast Coastal Monitoring Summit, December 10-12, 2002, Durham, NH.

USDA Aquaculture Grant Evaluation Panel member, 2009; Panel Chair 2010.

Oregon Sea Grant Review Panel, 2013.

d. Advisory Services

Chair of Harmful Algae section of NCRI-sponsored National Shellfish Research Plan Workshop, Charleston, SC, 2000.

Co-convenor of "Workshop on Domestication of Bivalve Mollusks," in La Tremblade, France, May 2002, to develop implementation plan for US-France bilateral Agreement in Oceanography project.

Invited participant in Workshop - United States National Plan for Algal Toxins and Harmful Algal Blooms, Charleston, SC, 21-25 March, 2004.

Science Committee member, 8<sup>th</sup> International Conference on Shellfish Restoration, 2-5 October 2005, Brest, France.

Consulting During course of work, continually called upon to provide advice and troubleshooting on molluscan feeding and algal culture problems and phytoplankton species identifications, for commercial, academic, and government organizations.

e. Workshops organized, chaired; sessions organized, chaired at professional meetings  
 Organized special session on Microalgal Feeds at Aquaculture '98 (World Aquaculture Triennial Meeting), in Las Vegas, NV.  
 Organizing Committee for CT Sea Grant-sponsored meeting, Marine Aquaculture: Emerging Technologies and Global Opportunities, in Stamford, CT, 1998.  
 Local Organizing Committee, Third International Conference on Molluscan Shellfish Safety, Southampton, NY, 2000;  
 Local Organizing Committee, National Shellfisheries Association annual meeting, April 2002 in Mystic, CT.  
 Science Advisory Committee, International Conference on Shellfish Restoration, October 2005 in Brest, France.  
 Organizer of International Workshop on Nutrient Bioextraction, December 2009, in Stamford, CT

f. Teaching and mentoring  
 Guest lecturer in Principles of Nutrition and Feed class at University of Connecticut since 1996  
 Faculty lecturer on microalgae at Aquavet Course, UPENN and MBL, 2002-2012  
 Assistant Professor in Residence, Marine Sciences Department, University of Connecticut,  
 Carol Rosetta, MS committee  
 Kevin Strychar, post-doc (with Prof. Evan Ward)  
 H  l  ne H  garet, Ph.D., Major Research Advisor  
 Christina Haska, MS committee  
 Christina Senft, Ph.D. committee  
 John Doyle, Ph.D. committee  
 Maria Rosa, MS and Ph.D. committees  
 Adjunct Assistant Professor, Florida A&M University  
 April Croxton, Ph.D., Major Research Advisor  
 Adjunct Faculty status at University of Brest, Plouzan  , France  
 Hansy Haberkorn Ph.D. committee  
 Aurelie Lelong, Ph.D. committee  
 Malwenn Lassudrie, Ph.D. committee  
 Adjunct Faculty Appointment at Center for Biological Research, La Paz, Baja California Sur, Mexico,  
 Ricardo Palomares, Ph.D. committee  
 Adjunct Assistant Professor, University of Rhode Island  
 Wa Iba Surir, Ph.D. committee  
 Adjunct Assistant Professor, University of Maryland  
 Xavier Alvarez, Ph.D. committee  
 Co-advisor for MS-equivalent research program for H  l  ne H  garet at ENSAR, Rennes, France  
 External Examiner, Ph.D. Dissertation , University of Tasmania; R.M.P. Knuckey, 1998, Isolation of Australian microalgae and preparation of microalgal concentrates for use as aquaculture feeds.  
 Mentor for six LIU Southampton "CMER" interns over several years.

Mentor for over 12 high-school science fair projects over several years.  
Developed and taught the Milford Microalgal Culture Workshop, a 3-day lecture and lab course for hatchery operators and extension personnel held annually at the Milford Laboratory; 2000-2013.  
Judge in the Connecticut State Science Fair nearly every year since 1986  
Post-doc advisor for Agneta Persson (NRC Program), 2002-2003  
Post-doc advisor for Hyun Jeong Lim (KOSEF Fellowship, South Korea), 2005-2006  
Post-doc advisor for Ghazala Siddiqui (HEC and Fulbright Fellowships, Pakistan), 2005-2007.  
Post-doc co-advisor (with J. Evan Ward, UCONN) for Kevin Strychar, 2004-2005.  
Post-doc advisor for M. Soledad Fuentes, 2009-2010  
MS research advisor for Carsten Krome, University of Kiel, Germany, 2010  
Post-doc advisor for Eve Galimany, 2010-2012  
Post-doc advisor for Franck Brulle, 2010  
Post-doc advisor for Sophie DeDecker, 2011  
Post-doc advisor for Yuan Liu, 2013-2014

## 10. AGENCY SERVICE

### a. Committees

NEFSC Research Council, 1988-1990; and 1998-2000.  
NEFSC Committee on Scientific Standing and Promotion, 1996-98.  
NEFSC Human Resources Council, 1999-2001.  
Served on following Milford Laboratory committees: Ad Hoc Open House committees, Library Committee, Computer Committee, Safety Committee.

### b. Other

Technical Monitor of three NOAA Fisheries S-K Grants.  
With Renee Mercaldo-Allen, organized Milford Research Conversations seminar series  
Appointed NMFS Representative to the "Ariakensis Team" to advise ASMFC on possible introductions of non-native oysters into eastern US coastal waters, 2004.  
Biological Review Committee member for petition to list the eastern oyster, *Crassostrea virginica*, as threatened or endangered under the Endangered Species Act, 2005

## 11. OTHER RELEVANT INFORMATION

### a. Outside Collaborations

G.W. Patterson, Department of Botany, University of Maryland, College Park, MD. Studies of algal sterols and fatty acids as related to nutrition of oysters, algal taxonomy, and algal metabolic processes.

A.R. Place (Center of Marine Biotechnology, Baltimore, MD). Determination of physiological response of bivalve shellfish to harmful microalgal blooms.

G. Ozbay (Delaware State University). Flow-cytometric applications in phytoplankton analysis.

J.-L. Giner (State University of New York at Syracuse). Experimental investigation of sterol metabolism in microcrustaceans and bivalve mollusks and its possible disruption by unusual sterols in harmful microalgae (ECOHAB funding).

S. Roberts (Marine Biological Laboratory, Woods Hole, MA; University of Washington). Studies of the genetic basis for disease- and stress-resistance in bivalve molluscan shellfish.

I. Sunila (State of Connecticut Department of Agriculture, Aquaculture Division). Relationship between immune status and disease progression in oysters.

B. Allam (State University of New York in Stony Brook). Immune status and QPX disease in quahog clams, and particle selection in bivalve mollusks

D. Breitbart (Smithsonian Environmental Research Center). Hypoxia effects upon oysters.

b. GRANTS (details not complete at time of printing)

1987-1988. Calabrese et al. (NOAA Fisheries, NEFSC, AED). NOAA National Undersea Research Program. Growth of hard Clams in Long Island Sound.

1992, \$23,500. Wikfors, G.H. & Smolowitz, R.M. (MBL, Woods Hole). NOAA Oyster Disease Initiative. Effects of the dinoflagellate *Prorocentrum* upon development of larval and post-set oysters.

1992-1994, \$199,000. Meritt, D.W., Paynter, K.T. (University of Maryland), Smolowitz, R.M. (Marine Biological Laboratory, Woods Hole), Walsh, D.T. (Aquacultural Research Corp., Dennis, MA), Gallager, S.M. (WHOI, Woods Hole, MA), & Wikfors, G.H. Northeastern Regional Aquaculture Center, USDA. A comprehensive investigation of larval development and mortality in the eastern oyster, *Crassostrea virginica*.

1994-1997, Calabrese et al. (NOAA Fisheries, NEFSC, AED). UCONN Marine Science and Technology Center, Bay scallop aquaculture and development in Connecticut: Technology development and demonstration.

1994-1995, \$230,000. Capriulo et al.. Connecticut DEP Long Island Sound Research Fund, Alteration of the planktonic food- web structure of Long Island Sound: Possible enhancement of the microbial loop due to eutrophication.

1996, \$10,000. Wikfors, G.H. & Robohm, R.A. NOAA COP Brown Tide Research Initiative. Isolation and propagation of the brown tide alga, *Aureococcus anophagefferens*, using dialysis culture techniques.

1997, \$230K. S-K Program, Calabrese et al. (NOAA Fisheries, NEFSC, AED). Shellfish and finfish aquaculture enhancement: Technology development and demonstration.

1997-1998, \$135,729. Wikfors, G.H., Shumway, S.E., Dam, H.G., Smolowitz, R.M., McManus, G.B., & Martin, C. ECOHAB: Trophic effects of two dinoflagellates.

1998-2000, \$136,050. McManus, G.B., Wikfors, G.H., Shumway, S.E., Dam, H.G., Smolowitz, R.M., and Martin, C. Connecticut Sea Grant. Trophic effects of two dinoflagellates upon representative pelagic and benthic consumers..

2001-2002, \$200,000. Widman, J.C., Wikfors, G.H., Smith, B., Stiles, S., Goldberg, R. & Choromanski, J. (NOAA Fisheries, NEFSC, AED). NOAA OAR National Marine Aquaculture Initiative, Development and testing of a recirculating seawater nursery system for the culture of bay scallops for on-growing and stock enhancement/restoration.

2002-2004, \$89,912. Ward, J.E. Strychar, K. (UConn) & Wikfors, G.H. EPA Long Island Sound Program Research Grant, Phytoplankton Dynamics in Long Island Sound: Influence of Environmental Factors on Naturally Occurring Assemblages.

2002-2005, \$431,537. Giner, J.-L. (SUNY Syracuse) & Wikfors, G.H. ECOHAB: HAB sterols and their effects on shellfish and crustaceans.

2005-2007, \$475,016, Shumway, S.E. (UConn), Burkholder, J.A.M. (NC State), & Wikfors, G.H. ECOHAB: Assessment for the potential of introduction of harmful algal bloom (HAB) species via shellfish transport.

2005-2007, \$154,805, Smolowitz, R.M. (MBL, Woods Hole), Leavitt, D.M. (Roger Williams U., Bristol, RI), Shumway, S.E. (UConn), Walton, W. (Cape Cod Coop. Ext.), & Wikfors, G.H. Effect of temperature on the infection of hard clams (*Mercenaria mercenaria*) by the protistan organism, Quahog Parasite Unknown.

2009-2013, \$450,000 per year, NOAA Aquaculture Program funding provided through annual, internal proposal process. Main projects: Microalgal Culture Technology and Support to the Aquaculture Industry, Probiotic Bacteria for Molluscan Shellfish Hatcheries, *Pseudo-nitzschia* Toxigenesis Environmental Drivers, Shellfish Aquaculture Environmental Interactions, Nutrient Bioextraction Using Shellfish Aquaculture, Environmental Controls of Bivalve Immune Function.

### c. RESEARCH INTERESTS

Microalgal culture, including engineering of aquaculture-feed production systems. Phytoplankton physiological ecology. Nutritional requirements of commercially-important bivalve mollusks as related to microalgal morphological and biochemical characteristics. Effects of harmful algae upon invertebrates. Immune responses of bivalve mollusks to environmental and microbiological challenges.
