

DR COBY L NEEDLE

PhD MSc BSc (Hons) CMath MIMA CSci

PERSONAL DETAILS

Positions:

- Sea Fisheries Programme Manager (C2 grade), Marine Scotland - Science, Marine Laboratory, Aberdeen.
- Honorary Lecturer, School of Biological Sciences, University of Aberdeen.

EDUCATION

University of Strathclyde: Ph.D. in Mathematics and Statistics, September 2005 – September 2011

Title: Fleet dynamics in fisheries management evaluations

Abstract: Fisheries managers use scientific evaluations of management plans to determine whether such plans will be sustainable. Most extant evaluations do not account for changes in fleet dynamics in response to management measures, and are likely to be flawed as a result. In this thesis, I develop a new simulation model to address this issue. I present motivating case studies of management strategy evaluations for haddock, survey-based management approaches, and multi-species catch quotas, in order to highlight the need for an improved spatio-temporal fishery modelling framework. I characterise the response of the Scottish whitefish fleet to short-term real-time area closures, as an example of the type of fleet dynamics that a new model would need to be able to simulate for cod in the North Sea. I demonstrate using two complementary methods that such closures are unlikely to have directly encouraged skippers to avoid cod-important areas, and are therefore unlikely to have reduced cod mortality. I develop and implement a new spatio-temporal fishery simulation model which is flexible and powerful enough to account for fleet responses and thereby enable insightful quantitative analysis and evaluation of the wide range of management approaches. Finally, I report initial tests of the model, which demonstrate that a vessel seeking to maximise weekly profit will act differently (and with different fish stock implications) to one that is allowed a maximum weekly catch. With this model and the further future developments of it that I outline, scientists will be in a much better position to advise fisheries managers on stock sustainability over long-term time scales.

University of Strathclyde: M.Sc. in Industrial Mathematics, 1992–1993

Courses taken: Perturbation methods, Numerical methods, Fluid dynamics, Statistics, Stochastic modelling, Coding, Heat and mass transfer, Viscous flow, Computational Fluid Dynamics, Environmental modelling, Experimental designs, Chaos, Transforms, Cryptography, Finite Element Methods, Mathematical computing.

Prizes: Distinctions in Mathematical computing, Heat and mass transfer, Stochastic modelling.

Projects: Team projects on aeronautic turbulence, heat transfer in fluid flow, and buckling of viscous flow. Summer placement with FRS Marine Laboratory, Aberdeen. Thesis: “Application of a two-dimensional hydrodynamic model to the north-west European shelf seas”

University of Aberdeen: B.Sc. (Hons) in Computing and Mathematics, 1987–1991

Courses taken: Topology, Probability, Analysis, Algebra, Differential equations, Logic, Database programming and management, Software engineering, Formal languages, Networks, Physics, Linear programming.

Prizes: Distinction in 1st year Physics, credits in 2nd year Mathematics and Computing Science.
Project: Bayesian maximum entropy in image processing.

PRESENT AND PREVIOUS EMPLOYMENT

MSS Marine Laboratory, Aberdeen, Nov 1996 – present

Senior Principal Scientific Officer (C2 grade) and head of the Sea Fisheries Programme (51 permanent staff, plus 11 contract staff and students): also Honorary Lecturer in the School of Biological Sciences, University of Aberdeen. Advisor for fisheries managers in Edinburgh and Brussels. Working on the stock assessment and population dynamics of marine fisheries, with particular attention to methodological improvement of stock-recruitment modelling, the incorporation of biological process models of recruitment into fish stock assessment procedures, survey-based assessment methods, management strategy evaluation, and commercial fleet dynamics. Teaching for the University of Aberdeen's MSc/MRes in Marine and Fisheries Science, and occasional courses on stock assessment methods. Chair of the ICES Working Group on the Assessment of Demersal Stocks in the North Sea and Skagerrak, 2004–2006. Chair of the ICES Working Group on Methods of Fish Stock Assessment, 2007–2009.

University of Aberdeen, Aberdeen, May 1994 – Nov 1996

Research Assistant in the Department of Geography. Worked on models of the transition from shrinking to expanding forests. Used statistical and time-series techniques in the analysis of historical spatial data on land cover, demography, quality of life and economic performance. Also responsible for data acquisition and collation from several European countries, and for extensive dissemination of results.

Institute of Terrestrial Ecology, Banchory, Oct 1993 – May 1994

Temporary Higher Scientific Officer. Studied the relationship between seabird colony size and local geographic features. Research was concentrated on shag colonies on the eastern Scottish coast, and used statistical and spatial analyses in GIS.

Blackwell Scientific Publications Ltd, Edinburgh, Mar 1992 – Sep 1992

Computer Officer. Performed general computer systems duties, and data conversion on disks containing scientific papers.

Gebi's Ski Hire, Fall's Creek, NSW, Australia, Jun – Sep 1990

Ski equipment technician.

ADDITIONAL INFORMATION

- Member of The Institute of Mathematics and its Applications.
- Professional status as a Chartered Mathematician and a Chartered Scientist.
- Foreign languages: Danish (intermediate), other Scandinavian (written only), French (school-level).
- Clean driving licence.
- Secretary and founder of the Marine Golf Club (<http://marinegolfclub.webs.com>).

- Accredited Wudang T'ai Chi instructor with the Aberdeen Tai Chi Association.
- Reviewer for *African Journal of Marine Science, Aquatic Living Resources, Biometrics, Canadian Journal of Fisheries and Aquatic Science, Ecology, Fisheries Oceanography, Fish and Fisheries, Fisheries Research* and the *Journal of Environmental Management*.

INTERESTS

My professional interest lies in the field of mathematical and statistical modelling of environmental processes, and human impacts upon them. My long-term career goal is to act as a consultant on such matters to academia, government and industry, and to use my training to seek to improve aspects of our natural environment.

My leisure pursuits include the study of the guitar and foreign languages, various team sports (football, cricket etc), running, swimming, t'ai chi chuan, skiing, squash, badminton, golf, cooking, gardening, reading and (first and foremost): entertaining my teenage children and dog.

TEACHING

- Five-day course for DFO, Canada ("Introduction to fish stock assessment: model fitting and interpretation"): Dalhousie University, Halifax, Nova Scotia, Canada, 31 August – 4 September 2009.
- Two-day course ("Survey-based fish stock assessment with SURBA"): DFO, St. John's, Newfoundland, Canada, 3–4 September 2008.
- One-day course on fisheries management and stock assessment, King's College (London) MSc on Aquatic Resource Management and Queen Mary's University MSc on Marine Ecology and Environmental Management: University Marine Biological Station, Millport, Isle of Cumbrae, 5 May 2005; 10 May 2006; 28 April 2009.
- Lectures, practicals and examination marking for Aberdeen University's MSc/MRes in Marine and Fisheries Science, 1998–2008; MSc/MRes in Applied Marine and Fisheries Ecology, 2009-present.
- Three-day course ("The Ins and Outs of ICA") on the ICA stock assessment model: IPIMAR, Lisbon, 4–6 May 1999; FRS Marine Laboratory, Aberdeen, 18–20 Dec 2000; CEFAS, Lowestoft, 4–6 Feb 2001. Included formal lectures and practical computing sessions. Attendance: 20 (Lisbon), 6 (Aberdeen) and 11 (Lowestoft) fisheries scientists.
- Lecturer and co-convenor (with Chris Darby, CEFAS) of the ICES Workshop Course on Fish Stock Assessment Techniques (WKCFAT): ICES, Copenhagen, 4–9 Feb 2002; CEFAS, Lowestoft, 18–22 Mar 2002; FRS Marine Laboratory, Aberdeen, 15–19 Apr 2002; ICES, Copenhagen, 5–12 Mar 2003.

STUDENTS

- Rocio Siemens, MRes in Marine and Fisheries Science, University of Aberdeen, May–August 2002. Thesis title: *Recruitment modelling using a morpho-physiological condition index as a proxy for egg production*.
- Alan Baudron, Fisheries Research Fund PhD Studentship, University of Aberdeen, January 2008 – December 2010 (co-supervised with C. T. Marshall). Thesis title: *Modelling growth rates of North Sea fish*.
- Alyson Little, NERC PhD Studentship, University of Aberdeen, October 2010 – September 2013 (co-supervised with C. T. Marshall). Thesis title: *Modelling the decision making behaviour of the fishing industry using spatially resolved data*.

- Rosanne Dinsdale, Honours summer placement, University of Aberdeen, May – August 2010. Project title: *Estimating species composition of fish discards using CCTV*.
- Ewan Edwards, MASTS Studentship, University of Aberdeen, October 2010 – September 2013 (co-supervised with Paul Thompson and Jason Matthiopoulos). Thesis title: *Do commercial fisheries influence the distribution and dynamics of northern fulmars?*
- Nico Butler, MSc in Applied Marine and Fisheries Ecology, University of Aberdeen, May–August 2013. Thesis title: *Developing allometry to estimate the length frequency distribution of partially occluded fish via Remote Electronic Monitoring* (Butler 2013).
- Andrew Ferguson, MSc in Informatics, University of Edinburgh, May–August 2014. Thesis title: *Identifying Fish Species From CCTV Video Of Discards*.
- Tanja Buch, MarCRF PhD Studentship, January 2014 – present (co-supervised with C. T. Marshall). Thesis title: *Integration of size-structured information in management of data-rich and data-poor fish stocks*.
- Max Lindmark, MSc in Applied Marine and Fisheries Ecology, University of Aberdeen, May–August 2015. Thesis title: *Incorporating fishery-dependent data in spatiotemporal distribution models to predict fish stock distribution*.
- Adam Delargy, MSc in Applied Marine and Fisheries Ecology, University of Aberdeen, May–August 2015. Thesis title: *Determining the residual reproductive value of a fish based on body weight*.

MEETING PARTICIPATION

ICES Assessment Working Groups and related

- ICES Working Group on the Assessment of Northern Shelf Demersal Stocks: 1997-1999, 2001-2004, 2007. Assessing Division VIa haddock and whiting.
- ICES Working Group on the Assessment of Demersal Stocks in the North Sea and Skagerrak: 1997, 2000-2006, 2008-present. Assessing North Sea haddock and whiting, Northern Shelf haddock, and North Sea lemon sole. **Chair 2004-2006**.
- ICES Annual Meeting of Assessment Working Group Chairs (AMAWGC): 2005-2006.
- ICES Annual Meeting of Advisory Working Group Chairs (WHCHAIRS): 2010.
- ICES Benchmark Workshop on Roundfish and Pelagic Stocks (WKBENCH): 2011. Benchmark analysis for North Sea haddock.
- ICES Workshop on the Analysis of the Benchmark of Cod in Subarea IV (North Sea), Division VIIId (Eastern Channel) and Division IIIa (Skagerrak) (WKCOD): 2011.
- ICES Workshop to evaluate the EU–Russian proposal for the harvest control component of the management plan for Rockall haddock (WKROCKHAD): 2012.
- ICES Benchmark Workshop on Roundfish Stocks (WKROUND): 2012-2013. Benchmark analysis for Division VIa and North Sea whiting.
- ICES Benchmark Workshop on Northern Haddock Stocks (WKHAD): 2014. **Co-chair** with Noel Cadigan, Memorial University, Canada.
- ICES Workshop to consider reference points for all stocks (WKMSYREF2 and WKMSYREF3): 2014 (two meetings).

Review Groups

- External reviewer for the DFO Newfoundland Regional Groundfish Assessment Meeting, St. John's, Canada 15–26 Oct 2001.
- NSCFP North Sea Review Group, ICES Copenhagen, 2004-2005.
- ACFM Review Group for the Assessment of Demersal Stocks in the North Sea and Skagerrak (RGNSSK), 2004-2006.
- ICES Review Group on Cod Management Plans (RGCODMP): 2009.
- External reviewer for the NOAA/NMFS/NEFSC Groundfish Assessment Review Meeting (GARM-III): Data Meeting, Woods Hole MA, USA, 29–31 October 2007.
- ICES Advice Drafting Group for the Celtic Seas Ecoregion: 2011, 2013, 2014.
- ICES Advice Drafting Group for the North Sea: 2015.
- External CIE reviewer for the 59th Northeast Regional Stock Assessment Review Committee (SARC 59), Northeast Fisheries Science Center, Woods Hole MA, USA, 15-18 July 2014.

Other ICES Groups

- ICES Study Group on Stock-Recruitment Relationships for North Sea Autumn-Spawning Herring: 1998.
- ICES Working Group on Recruitment Processes (WGRP): 1998, 2000.
- 4th ICES/GLOBEC Backward Facing Workshop of the Cod and Climate Change Working Group (The gadoid stocks in the North Sea during the 1960's and 70's): 1999.
- ICES Study Group on the Incorporation of Process Information into Stock-Recruitment Models (SGPRISM): 1991, 2001-2002.
- ICES Workshop on Rockall Haddock: 2001.
- ICES Working Group on Methods of Fish Stock Assessments (WGMG): 2001, 2003, 2004, 2006-2010. **Chair 2007-2009.**
- ICES Study Group on Growth, Maturity and Condition in Projections (SGGROMAT): 2002, 2004. Co-chair with Tara Marshall, IMR/University of Aberdeen.
- ICES Study Group on Stock Identification and Management Units for Whiting (SGSIMUW): 2005.
- ICES Ad Hoc Group on Long Term Approaches (AGLTA): 2005.
- ICES Workshop on Limit and Target Reference Points (WKREF): 2007.
- ICES Ad Hoc Group on the Cod Recovery Management Plan (AGCREMP): 2008.
- ICES Ad Hoc Group on Criteria for Reopening Fisheries Advice (AGCREFA): 2008.
- ICES Workshop on Reviews of Recent Advances in Stock Assessment Models Worldwide – Around The World In AD Models (WKADSAM): 2010. **Co-chaired** with Chris Legault, USA.
- ICES Working Group on Improving use of Survey Data for Assessment and Advice (WGISDAA): 2012.

Advisory meetings (not including stakeholder liaison meetings)

- North Sea Regional Advisory Council (NSRAC) Demersal Working Group: 2005.
- SGMD New Entrants introduction sessions: 2009
- EU-Norway Bilateral Negotiations: 2005-2016.
- SeaFAR meeting on “Scottish Whitefish Stocks: Medium to Long Term prospects”: 2006.
- Joint NSRAC/NWWRAC Symposium on the Cod Recovery Plan: 2007.
- Invited witness to the Scottish Parliament Rural Affairs and Environment Committee, Holyrood, Edinburgh: 2007, 2008
- Conservation Credits Steering Group: 2008.
- Scottish Inquiry into Future Fisheries Management: 2009.
- CFP Reform Management Group meeting: 2009.
- SGMD Branch Heads meeting on CFP Reform: 2009.
- NWWRAC Focus Group on Management of West of Scotland haddock: 2009.
- Marine Science Strategy meeting: 2009.

European and national projects

- SAP Symposium on “Fish Stock Assessments and Predictions: Integrating Relevant Knowledge”: 2000.
- METACOD: 2002-2003.
- MATES: 2002.
- EFIMAS: 2004-2008.
- FISBOAT: 2004.
- MASTS (Marine Alliance for Science and Technology Scotland) Science Board: 2009-2010.
- Scottish Government Contract Research Fund project: *Automated Image Analysis For Fisheries*. One-year project awarded to University of East Anglia.
- DiscardLess: 2015-2019. EU H2020 multipartner consortium project on *Strategies for the gradual elimination of discards in European fisheries*.

EU Expert Group meetings

- EU-Russia Expert Group Meeting on Rockall haddock: 2003, 2004, 2008-2012.
- EU-Norway Expert Group on Multiannual Management Plans: 2004.
- EU STECF-SGRST Cod Recovery Evaluation: 2005.
- EU STECF Expert Working Group on Management Plans (EWG12-07): 2012.

Conferences and symposia

- Symposium on Applications of Multilevel Modelling: University of Manchester, 1994.
- Scottish Interest Group on Mathematical Modelling of Biological Populations: University of Strathclyde, Glasgow, 1998.
- Fishing 2001 Exhibition, SECC, Glasgow: 2001, 2009.
- *Scotia* Open Day, Peterhead, 26 Jul 2001.
- ICES Annual Science Conference, Marina Conference Centre, Helsinki, Finland, 2007.
- University of New Hampshire Sea Grant Symposium on “Haddock 2007”, Sheraton Harborside Hotel, Portsmouth NH, USA, 2007.
- Workshops and symposia on Fully Documented Fisheries and CCTV monitoring: 2011-2014.
- World Fisheries Congress, Edinburgh, April 2012.
- World Conference on Stock Assessment Methods, Boston, July 2013.
- Second Fishery Dependent Information Conference, Rome, March 2014.

FIELDWORK

- Hydrochemical survey cruise on FRV Clupea, western North Sea, 2 Hydrochemical survey cruise on FRV Clupea, western North Sea, 2–7 Jul 1993.
- Demersal trawl survey cruise on FRV Scotia, eastern Atlantic and Irish Sea, 25 Feb–17 Mar 1997.
- Sampling of demersal, pelagic and shellfish ports and markets: Shetland, 18–22 Aug 1997; Mallaig/Troon, 19–23 Jul 1999; Ullapool/Kinlochbervie 21–25 Aug 2000.
- Monkfish and megrim trawl survey cruise on FRV Scotia, St. Kilda and shelf edge, 27 Mar–10 Apr 2000.
- Joined FRV *Scotia* for a day off Ullapool in November 2013 as part of filming for the BBC *Coast* series.
